

TWO MEN CLAIM TO BE GOV. OF NEW YORK

Lieut. Gov. Glinn Announces His
Intention of Occupying Ex-
ecutive Chamber Today

SULZER WILL HOLD HIS OFFICE

Friends of Governor Say Sulzer Will Use
Every Weapon in His Power to Maintain
His Position as State Executive

MAY BOTH RESORT TO LEGAL TESTS

ALBANY, N. Y., Aug. 13.—With Governor Sulzer impeached by the assembly and the date of his trial before the senate and the judges of the court of appeals fixed for September 18, the spectacle was presented tonight of two men claiming to be governor of the state of New York. As soon as the articles of impeachment, adopted at an early hour this morning by the Democratic majority in the assembly, were presented to the senate shortly after 3 o'clock this afternoon, Lieut. Gov. Martin H. Glinn announced his intention of occupying the executive chamber. Friends of Governor Sulzer said the governor intended to continue in office and would use every weapon in his power to maintain his position on the ground that the assembly had no constitutional right to consider impeachment at its extraordinary session.

Some asserted the governor would go so far as to summon military protection if necessary to prevent the lieutenant governor from occupying the executive chamber.

Would Not Resort to Force.

Judge D. Cady Herrick, who will act as chief counsel for the governor at his trial, said tonight that talk of resort to force is the merest rot. "He will meet the charges against him in an orderly and dignified way," said Judge Herrick, "and will do nothing unbecoming the dignity of the state."

The governor himself was silent. When he left his office in the capitol tonight he was asked if he expected to return tomorrow. "Yes sir," he replied in angry tones.

So far as could be learned no attempt was made by Lieut. Gov. Glinn in any way to exercise the functions of chief executive today but there was every indication that there would be a clash of authority tomorrow when both men appear at the capitol.

The lieutenant governor would not indicate tonight what action he proposed to take except to say there would be "no circus or military maneuvers about occupying the executive chambers; the law is supreme."

The inaction of Lieut. Gov. Glinn in the matter was in the face of arguments given expression both in the senate and in the assembly today that at the moment the articles of impeachment were presented to the senate Governor Sulzer automatically ceased to be the chief executive. This contention was based on an article in the constitution which says that "in case of impeachment of the governor the powers and duties of the office shall devolve upon the lieutenant governor."

It was held by the majority leaders that the word "impeachment" corresponded with the word "indictment" in a criminal trial and that therefore in the meaning of the constitution the governor already stood impeached, even though not yet convicted and was therefore not now eligible to hold his office.

Governor Not Molested.

These arguments were placed before the lieutenant governor by the Democratic leaders in the afternoon but nevertheless Governor Sulzer was not molested. A few minutes after the governor left his office Patrick E. McCabe, clerk of the senate, appeared at the executive chamber with a copy of the articles of impeachment and a summons and complaint which he intended to serve upon the governor. When informed of the governor's secretary that he had missed the governor by scarcely a minute, McCabe asked for an appointment tomorrow. Platt replied that the governor would be at the executive chamber at 11 o'clock tomorrow morning and that he would "try to arrange matters for that time."

It seemed practically certain tonight that the governor and lieutenant governor would both resort to legal tests of their respective claims in the courts.

Governor Sulzer was in consultation until a late hour with his advisers. The seven attorneys who are to represent Governor Sulzer at his trial are expected to confer here tomorrow in preparation of the defense.

Reports that Mrs. Sulzer would give out a statement setting forth the details of her alleged use of Governor Sulzer's campaign checks for stock speculation unknown to the governor did not materialize today. It was said that her testimony at the trial will go far in clearing the governor of the charges of misuse of campaign funds for stock speculation. Mrs. Sulzer was in the care of physicians tonight and was said to be in a complete state of collapse.

Silence also will be the policy of

GIRL CONTINUES TO BE CHIEF WITNESS

MARSHA WARRINGTON CONCLUDES
TESTIMONY AT DIGGS HEARING

Diggs Constantly Prompts Questions
of His Attorneys During Cross Ex-
amination—Judge Admonishes
Jury That Case Must Not Be Dis-
cussed by the Jurors.

SAN FRANCISCO, Cal., Aug. 13.—Marsha Warrington continued to be the chief witness heard today in the trial of the government case against Maury I. Diggs, charged under the Mann act with having transported her from Sacramento to Reno for immoral purposes.

She unfolded the story of her intimacy with the defendant lowering her eyes at times, hanging her head and dropping her voice almost to a whisper but never faltering in her answers.

There was no attempt to shake her narrative on cross-examination. The defense sought to widen her admissions of immorality but efforts to bring in the names of other men were disallowed. When she left the stand subject to further examination tomorrow her story remained unchanged.

Diggs, she said had induced her to leave home against her wishes and judgment, it was he who had brought her transportation and their trip to Reno had not been merely an episode in a platonic friendship.

During the cross-examination Diggs constantly prompted the questions of his attorneys. When the essentials of her previous testimony were called into doubt she made her answer a stronger reaffirmation.

The court room was somewhat started in the afternoon session by a case to be mentioned within the trial judge to the jury that the case must not be discussed by the jurors, particularly with any friends of Diggs or F. Drew Caminetti, co-defendant, in another case on a like indictment.

Reason for the Court's Order.

They must not even allow the case to be mentioned with their hearing or read about it in the newspapers. The emphasis with which the instructions were twice repeated by Judge Van Fleet gave rise to inquiries which he would not satisfy. He refused absolutely to discuss his reasons and Theodore Toombs who has thus far conducted the government's case, would be no more specific although he did say that there was reason for the court's order. One juror admitted that he had been in company where the case was discussed though he had not joined the talk.

Just before adjournment, Nathan Coghlan, for the defense asked permission to place Rhoe on the stand. On the return trip from Reno he said, while all four were under arrest, Marsha Warrington had given to assistant District Attorney Arkinson of Sacramento a statement of the elopement which was taken down by an official court reporter and which was entirely at variance, he was informed, with her testimony in court. The defense wished this statement in evidence.

Judge Van Fleet held that he had no power to compel the prosecution to surrender the statement but he was willing that it should be introduced by agreement and it introduced that it should be made the basis of cross-examination. Roche resisted the motion.

Two minor witnesses the managing editor of a Sacramento newspaper and the probation officer of Sacramento county—denied today that there had been any scandal connected with the names of the four on the point of exploding in print or that arrests were impending if they remained in Sacramento. Miss Warrington had testified that Diggs had told her such was the case and this fact had been her prime motive in leaving home.

the governor until he appears at the bar of the court of impeachment.

Condition Becomes Serious.

Mrs. Sulzer's condition became so serious tonight that Governor Sulzer wired to New York for a specialist on nervous disease. The governor then told his advisers, it was said by those who claimed to have knowledge of what transpired at the night conference, that under no circumstances would he allow Mrs. Sulzer to testify at the trial.

Court to Meet Sept. 18.

The vote to impeach the governor was passed in the assembly shortly after 5 o'clock this morning after an all-night session by a vote of 79 to 45. A committee of nine members headed by Assemblyman Levy, majority leader, presented the articles of impeachment to the senate this afternoon. Senator Wagner, president pro tem of the senate, declared the articles of impeachment "hereby received" and announced he would summon the court of impeachment "to meet at the capitol on the eighteenth day of September, 1913, at the hour of noon."

While the court was thus summoned to meet on this date it was said by a number of the assembly committee of managers tonight that the actual trial of the governor probably would not begin until a few days later as it would be necessary to formulate rules of procedure and arrange other details.

From the time of the adjournment until Governor Sulzer left his chambers the crowds of sight-seers who had thronged the capitol remained to see if any attempt would be made by Lieut. Gov. Glinn to assume the reins of government.

MINOT, N. D., Aug. 13.—Several persons were injured and several arrests were made tonight during rioting which followed a street meeting conducted by Industrial Workers of the World. SEEK WAY TO SPEED UP ACTION ON BILL

Democratic Caucus Is Called for
Today to Discuss Plans for
Expediting Tariff Bill

DEBATE FREE LISTING WHEAT

Agricultural Schedule and Proposed Free
Listing of Wheat Subjects of Tariff
Discussion in the Senate

CLAIM FARMERS UNFAIRLY TREATED

WASHINGTON, Aug. 13.—Discussion of the agricultural schedule and the proposed free listing of wheat in particular, enlivened the tariff discussion today in the senate. Senator Gronna of North Dakota, proposing in lieu of free wheat a duty of 6 cents a bushel. Action on the amendment was deferred. A prolonged debate again aroused Democratic leaders to a realization of the necessity for some action to speed up consideration of the measure if possible. To this end a Democratic caucus has been called for tomorrow, when plans of expediting the bill will be discussed and a proposal will be made for an agreement that a recess of congress be taken until November 1; after the passage of the tariff bill in the senate and the currency bill in the house. This, some Democrats assert, would induce Republicans to cut short discussion of the tariff and would also overcome all Democratic opposition to currency legislation at the special session. Debate on the free listing of wheat came to a climax later in the day, when Senator Borah of Idaho, referring to the "revolving door" which the Democrats have proposed, asserted it was the same as Canadian reciprocity passed by the Republicans to the betrayal of the farmers of the country.

"I will only say," remarked Senator Borah, "that if the Republican senators had voted their convictions when Canadian reciprocity passed this body, there would not have been ten votes for it on this side of the chamber."

That was a disaster, a treacherous betrayal of as loyal a constituency as a great political party ever had. Now we have the same principle as reciprocity embodied in this bill. It does not impeach the Democratic party of inconsistency as it impeached us and I believe it will have the same effect."

Senator Williams declared that he did not want to see the American government rob the poor in order to give the landlords and he believed that the result of free listing farm products would lower the price of bread and meat and open the farmers' eyes to the fact that the Republican party had been robbing them about the virtues of protection for years.

Treating Farmers Unfairly.

That the Democrats are treating the farmers unfairly was maintained by Senators Gronna, Clapp, Borah, Bristow, Smoot, Sherman and others who participated in the prolonged debate on wheat.

Senator Williams and Shively of Indiana defended the purpose of the Democrats to put wheat on the free list. Against the argument of unfair discrimination for the farmers made by the Republicans they placed the assertion that never was there a greater "humbler" than the Republican claim of protection of the farmer.

Wheat, the Democrats argued, was an article exported from this country throughout the world, needing absolutely no protection, the price of which should be reduced to the American people if possible. Senator Gronna asserted that he feared Canada with its surplus of wheat would take advantage of the opportunity to invade the American market by paying wheat on the free list in her tariff, thereby taking duty of ten cents a bushel, proposed in the pending bill.

Administration Currency Bill.

Democratic insurgents on the currency question declared themselves much encouraged today after five hours discussing the administration currency bill. Representatives Henry, chairman of the rules committee, and Randall of South Carolina, and Rader of the original insurgent amendments, and Representative Eagle of Texas argued for the insurgent contentions during the session and Representatives Bulkeley and Korbly defended the bill.

Should Establish Separate Bill.

With the administration measure under attack in the caucus by those Democrats who seek to write into the measure a provision which would give the farmer currency on his crops President Wilson today issued a statement committing himself to a statement of credit legislation at the next session of congress. He set forth that the matter could not be adequately handled in the present bill and that a separate and distinct machinery for the handling of rural credits should be established. This question raised by the house insurgents has brought a flood of comment from the agricultural communities, to their representatives in congress and many believed the president's statement would have some effect on the consideration of

The important feature of the convention will come tomorrow when a committee headed by Miss Adams will go before the house rules committee to ask for the creation of a committee on women's suffrage.

the bill in the caucus. But after the day's discussion the insurgents were confident that they would secure material amendments looking to the providing of money to farmers. One amendment suggested which secured favorable consideration from both sides would make it clear that banks in the federal system could discount paper based on warehouse receipts for staple commodities and would make this paper discountable at the regional reserve banks. Many active members of the house evinced a disposition to support this amendment, which would carry out the ideas expressed in the insurgent proposals.

FOREIGN POWERS MAY SUPPORT PEACE PLAN

Administration Learns That For-
eign Governments Will Do Noth-
ing to Hinder Wilson Policy

INCENSED AT STATEMENT

President Is Displeased with Ambassador
Wilson's Statement to British Foreign
Office and Dismissal May Follow

BRITO RELEASED ON \$10,000 BONDS

WASHINGTON, Aug. 13.—The United States government has informally sounded the powers and learned that foreign governments generally will do nothing to embarrass the peace policy of President Wilson toward Mexico and are inclined to support it.

Henry Lane Wilson, whose resignation as ambassador of Mexico recently was accepted to take effect October 14th, issued a statement today attacking the reported statement that recognition of the Huerta government had been extended after he had made a congratulatory speech to the provisional president.

President Wilson read the ambassador's statement and was so incensed at its tone and contents that he promptly requested Secretary Bryan to ascertain through the British embassy here, whether the utterance of the British foreign office as reported was correct and tonight the dismissal of Ambassador Wilson by summary acceptance of his resignation to take effect immediately was under consideration by the administration. These were the developments of the day here in the Mexican situation, while dispatches from John Lind, personal representative in Mexico of President Wilson indicated that he was in personal touch with Frederico Camba, Mexico minister of foreign affairs and was preparing to submit the representations of the United States on the restoration of peace in Mexico.

Is Released on Bonds.

New Orleans, La., Aug. 13.—What was considered a delicate situation involving the United States and Mexico was somewhat cleared here today when Emmanuel C. Brito, fugitive governor of the Mexican state of Campeche, arrested on charges of murder and robbery in Mexico, was released on bonds of \$10,000. It was stipulated that Brito was to report every day to the United States marshal here for forty days, the time given in a treaty for that government to produce proof of guilt.

Brito does not deny that he killed one of Huerta's men when the latter came to arrest him, but argues that it was done in time of war, is a political offense and not extraditable.

Makes New Interpretation.

Washington, Aug. 13.—A new interpretation of the extradition treaty with Mexico was established today by Attorney General McReynolds in ordering the release under \$10,000 bail of Emmanuel Castrella Brito, provisional governor of Campeche, who was being held at New Orleans at the request of the Huerta government, charged with extraditable offenses.

Heretofore this government has maintained that under the treaty such a prisoner could not be admitted to bail because it could not be ascertained which country should be indemnify in case the prisoner escaped and forfeited his bond.

The treaty provides that each government shall procure "the arrest of such criminal and keep him safe in custody for a period of not exceeding forty days."

Today's action was regarded in official circles as practically a notice that the American administration in the future would look with disfavor upon requests for the arrest and detention of person on criminal charges when in reality their offenses are merely political.

FOSS MAY SEEK REPUBLICAN NOMINATION FOR GOVERNOR

Should Massachusetts Executive Return to Republican Ranks it Would Mean Three Cornered Contest at the Primaries.

Boston, Aug. 13.—Governor Eugene N. Foss, who was one of the candidates for the Democratic presidential nomination last year, made public a brief statement today which was generally interpreted by political leaders to mean that he would seek the Republican nomination for governor at next month's primaries. Should the governor return to the Republican ranks which he left to be elected as a Democratic congressman in a strong Republican district and subsequently elected as governor for three successive terms, it would mean a three-cornered contest at the primaries.

Colonel Everett O. Benton, last year's defeated Republican standard bearer, and Congressman Augustus P. Gardner, have already announced that they would seek the Republican nomination. The governor has frequently expressed dissatisfaction with the present Democratic administration, saying recently:

WILLIAM LORIMER MAY AGAIN SEEK THE SENATORIAL TOGA

In Address at Catholic Harvest Festival He Asserts the Country is Rampant With Socialism.

Rockford, Ill., Aug. 13.—William Lorimer in an address at a Catholic harvest festival at Durant today hinted that he might again seek the senatorial toga. Lorimer asserted the country was rampant with Socialism. He typified the calls for the initiative, referendum and recall as Socialistic fallacies that had developed to the point where they threatened to engulf the country in a sea of misrepresentation that would destroy the very foundation of government. He paid a tribute to the Catholic church for its unrelenting fight on Socialism and said it was the Catholics of Illinois who defeated the initiative and referendum.

BONES FOUND IN FURNACE NOT THOSE OF HUMAN BEING

University Professor Who Analyzes Bones Asserts They Are Probably Remnants of Roast Pork Dinner.

Chicago, Aug. 13.—Pieces of bones found in a furnace at the home of John Grady, charged with the murder of Nellie Hausman-Grady, his wife, were not those of a human being, but probably were the remnants of a roast pork dinner, according to a decision today by Prof. George A. Dorsey of the University of Chicago. Grady was taken into custody by the police after a sister of Mrs. Grady came from Cincinnati and discovered that the man's wife had been missing for two years. A search of the Grady basement revealed the charred bones, which the police asserted explained Mrs. Grady's fate. It was declared that the woman probably had been murdered and her body burned in the furnace. Grady is still held at a police station.

Charles H. Kelleman, election commissioner was on the stand when the hearing closed for the day.

"All is Well That Ends Well"

Along with dyspepsia, constipation, nervousness, sleeplessness and general ill health. Why? Because a disordered stomach does not permit the food to be assimilated and carried to the blood. On the other hand, the blood is charged with poisons which come from this disordered digestion. In turn, the nerves are not fed on good, red blood and we see those symptoms of nervous breakdown. It is not hard work that does it, but poor stomach work. With poor thin blood the body is not protected against the attack of germs of grip—bronchitis—consumption. Fortify the body now with

COMMISSION-MANAGER CHARTER FOR DAYTON

New Type of Municipal Government
Voted on by Citizens of Ohio—
Text of New Charter.

On August 12th, the citizens of Dayton followed the example set by Galveston after its catastrophe and adopted a decidedly new type of municipal government. The new charter provides for the short, non-partisan ballot, a city manager, and a legislative commission, is said to be the most advanced charter ever adopted by an American city. Dayton is the first city of any size in the country to acquire a city manager in place of a multitude of elected officers, and the first to combine the best features of the old commission plan with the manager idea.

The Dayton charter provides for five commissioners who will have purely legislative functions; the administration of the city's business being left to a trained city manager employed by them. There is no diffusion of responsibility as seen in the straight commission plan where each commissioner is in active charge of a department. To complete the balance of power, the plan gives the right of the initiative, referendum, protest and recall.

An integral part of the Dayton plan of government is the short non-partisan ballot and the elimination of ward lines. At the same time a long list of petty offices are taken off the ballot and made appointive. Under the new plan the commissioners are chosen for a four-year term, half of the body being elected every two years. This feature of concentrating responsibility in the hands of a few men was desperately fought by all of the old party machines.

The administration of the city is divided into five departments, the heads of which are appointed by the manager. All remaining city officers are subject to a civil service appointment. A unique feature is the creation of a department of social welfare, which, in addition to supervising the departments of health, parks and playgrounds, must make inquiries into the causes of poverty and disease in the city, and make recommendations to the legislative body.

The new charter is also unusual in providing for the complete administrative machinery of the city, designed in harmony with the most advanced ideas of city management. Plans are made for a scientific budget, complete auditing of city accounts, a modern accounting system, purchasing agent, standardization of city supplies, time and service records, and many other advances. These innovations are the result of investigations made by the charter commission into the government of New York, Philadelphia and Cincinnati.

BAD LEAR SHOWS

US GOOD FARMING.
Anyone can pass as a good farmer when seasons are favorable, but it is during unfavorable conditions that proof comes out as to a man's ability as a farmer. Recently the editor was on a farm where a large area was being plowed in almost ideal conditions. Later a visit to the same neighborhood developed the fact that this particular farmer had a good stand and notwithstanding extremely dry weather, confidently expressed the idea that he needed no rain on his crops, although all his neighbors were complaining of poor stands because of dry weather. Good preparation and cultivation are the best insurance against injury from dry weather and likewise the best preventive against getting in the "grass" in wet weather.—The Progressive Farmer.

MRS. CONSTANCE SMITH HONORED.

Is Appointed Assistant Professor of Music in the State University.

A fine honor has recently come to Mrs. Constance Smith, formerly of this city and for some time instructor in music at the University of Illinois. She has been honored by the title of assistant professor of music in the university by a unanimous vote of the trustees.

The honor comes in recognition of her great ability as an instructor in music and a lecturer on the same subject. The honor is most worthily bestowed, as Mrs. Smith is a lady of rare attainments and fine character.

The honor also brings with it a substantial increase in salary, which will be acceptable.

TO UNITE AGAINST THE DEMOCRATS

Parties May Bury Hatchet in Maryland.

Baltimore, Md., August 13.—Whether the Republicans and Progressives of Maryland are to bury the hatchet and present a united front against the Democrats in the coming senatorial election will probably be determined definitely at a mass convention of the leaders of the two parties to be held in this city tomorrow. The present situation is filled with interesting possibilities and the result of the conference will be of interest and importance not only in Maryland but in other states where efforts are being made to amalgamate the Republicans and Progressives.

The political situation in Maryland is attracting attention just now from the fact that the new method of electing United States senators by direct vote of the people is to have its first tryout here next November when a successor is to be chosen to the seat of Senator Jackson, who was appointed by the governor last year to fill the unexpired term of Senator Rayner.

The election will be given added significance by the fact that it will be the first test of public sentiment since the advent of the Democratic national administration.

Of late years Maryland has been a close state politically, though it used to be regarded as a Democratic stronghold. Last year the Democrats won an easy victory because about half the men who had been voting the Republican ticket supported the Progressive party.

Until recently it was the belief that three tickets would be put in the field this fall and that, in consequence the result would be the same as last November, namely, an easy Democratic victory. But with the inception of the movement to reunite the Republicans and Progressives the situation took on a different turn. A straight-out fight between the Democrats and their opponents will mean an even and hard fought battle. It is settled that the Democrats, whoever their nominee for senator may be, will ask the voters of the state to support the Democratic party on the ground that the Wilson administration is a success. Naturally there is the keenest sort of interest as to what the attitude of the Republican opposition will be toward the tariff, banking and currency, and other reforms advocated by the Wilson administration.

A joint committee made up of leaders of the Republican and Progressive parties has prepared a declaration of principles to be submitted to the mass convention tomorrow. The platform confines itself largely to state issues, on which the two parties are expected to agree without much difficulty. In regard to national questions the platform indorses nearly all of the important reforms advocated by the national Progressive party with the exception of the recall of judicial decisions.

RESOLUTIONS.

Concord, Ill., Aug. 10, 1913.

Whereas, death has again entered our ranks and taken from us one of our most useful and beloved members in the person of Brother Lewis H. Plank.

Therefore, be it resolved, that we tender to the stricken family our heartfelt sympathy in this sad hour of their bereavement.

Be it further resolved, that we send a copy of these resolutions to Sister Ethelyn Plank and her little children and that the secretary be instructed to spread a copy upon our Sunday school records. And furthermore that we furnish copies to our newspaper correspondents for publication in the county papers.

HAS COLD STORAGE LAW.

Harrisburg, Pa., Aug. 13.—The cold storage act passed by the last Pennsylvania legislature, and which is believed to be the first law of its kind enacted by any of the states, will take effect tomorrow. The principal purpose of the law is to limit the time in which eggs, butter, poultry, etc., may be held in storage. It also contains other important provisions relating to the sanitation and equipment of cold storage warehouses. All cold storage plants are required to take out a state license. Not only the mercantile cold storage warehouses, but all similar plants attached to hotels, restaurants and hospitals, in which food is stored for more than 30 days, will be required to comply with the new law.

RADIATOR PLATES ON SALE.

Autoists Have Chance to Contribute Toward \$10,000,000 Coast to Coast Road.

Indianapolis, Ind., Aug. 13.—Automobile radiator plates, boosting the proposed coast to coast rock high way have been placed on sale here and in this way, a chance is given all motorists to contribute their mite toward the projected road, which will be named "The Lincoln highway."

The plates are numbered consecutively. Plate No. 1 has been reserved, and will be sent to President Wilson. With the exception of the lower numbers, the plates will sell for \$5. The promoters hope to get higher prices for the low numbers as plate No. 2 already has been sold to a woman in Maine for \$1,000.

It is estimated that the highway will cost about \$10,000,000, and of this amount, \$1,000,000 already has been subscribed.

DEVELOP SCHOOL SYSTEM ECONOMICALLY.

Under the above caption the Springfield Register recently had the following editorial urging the board of education there to use economy in school management and to guard against the accumulation of a large building fund which would not benefit the people:

"The board of education will meet this afternoon to fix the school budget for the ensuing year. Upon its action will depend in a large measure the total tax rate for next year. The taxes for school purposes this year were unusually high and out of proportion to the other taxing divisions.

"The total rate this year was \$5.31 on each one hundred dollars of assessed valuation. Of this amount, \$2.13, or over 40 per cent of the total amount paid, was for school purposes. Practically 10 per cent of the total amount paid in the Springfield school district was for what is known as 'building purposes.' This amounted to a fund of approximately \$90,000.

"On account of existing labor troubles, but a small percentage of this has been expended for the purposes for which it was collected and there is no likelihood that any considerable portion of it will be spent before next year as no new work is under way.

"It is understood that a majority of the board of education favor another 'building fund' levy of substantially the same amount as was levied a year ago.

"The taxpayers will gladly pay any amount of money that is actually needed for repairs and improvements in the various school buildings and for any new buildings that may be absolutely necessary, but they disapprove the accumulation of a fund for which there is no immediate use."

IS STILL OWNER OF 40,000 ACRES IN FARM LAND.

The Kansas City Star of recent date contained an interesting article about Leonard K. Scroggin of Mt. Pulaski. Mr. Scroggin is 95 years of age. He is still actively engaged in business. Up to five years ago he owned 60,000 acres of farm land in the United States and Canada. He has been selling this until now his holdings are 40,000 acres, 10,000 in Minnesota and the rest is distributed in the states of Illinois, Missouri, Kansas, Nebraska, Mississippi, Alabama and Texas. He also owns considerable town property.

NEGRO SHOULD HAVE PREFERENCE OVER ALIEN.

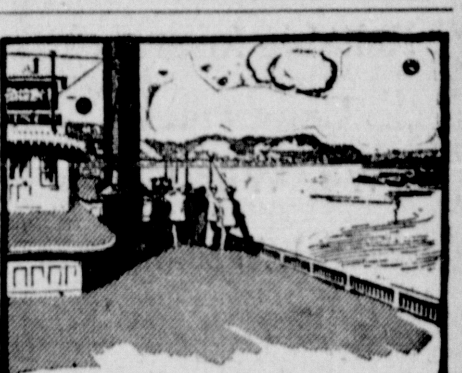

Cuthbert, Ga., Aug. 13.—The Georgia State Agricultural society, the oldest organization of its kind in the south, began its 68th annual meeting here today with a large and representative attendance. President John T. Williams called the gathering to order and presided over the opening session.

The principal address of the morning was delivered by Dr. David C. Barrow, chancellor of the University of Georgia. Dr. Barrow spoke on the subject of "The Negro." He expressed regret at the tendency of the white man to give foreign laborers employment in preference to the negro. Much of the south's future, he declared, depends on the white man being able to make a faithful and efficient worker out of the negro.

GOV. DUNNE TO ATTEND OUR NEXT RACE MEET

DRIVING CLUB'S THIRD MATINEE TO BE HELD NEXT THURSDAY.

State's Chief Executive and Other Officials Have Accepted Invitation to Be Present—A Good Card of Races Has Been Arranged and Some Handy Pacers and Trotters Are Among the Probable Starters.

Jacksonville's Driving club officials are working overtime these days in making preparations for the association's third racing matinee of the season, to be held at the race course in South Jacksonville next Thursday afternoon, August 21.

The Journal has been informed that Governor Dunne and Secretary Wood and other state officials have been invited to be present, and that Governor Eddie (everybody in Chicago calls Judge Dunne as Eddie) has promised to come. It is almost certain that Secretary Wood will also honor the occasion with his smiling countenance. With the governor Jacksonville can reasonably expect Mrs. Dunne to accompany her worthy spouse, because they are inseparable—Mrs. Dunne accompanies the judge everywhere. Their presence will surely insure an outpouring of society in this city and neighboring cities, townships and villages, and the officials of the association promise a card worth the effort.

There will be a free-for-all pace to start with, three heats in five. The second race will be a free-for-all trot, also best three in five. The third race will be a 2:30 trot, three in five, and the fourth and last event will be a trot for horses in the 2:28 class, three in five.

Conditions call for five horses to enter in each race, with three certain to start, in the half mile heats. Horses will be called at 1 o'clock, and all must be ready for the bugle call at 1:30. Jeffries band has been engaged to discourse sweet strains.

Good Reason for His Enthusiasm.

When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as is often the case, it is but natural that he should be enthusiastic in his praise of the remedy, and especially is this the case of a severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold by all dealers. (Adv.)

HOW ABOUT HIS GRANDMOTHER?

Correspondent Harks Back Two Generations in Justification of the Split Skirt.

Editor Bloomington Pantagraph: I noted an article from a young man making strenuous objection to the split skirts now worn by the ladies. Let me remind the young man that his own grandmother, in her young womanhood, no doubt wore one of those voluminous hoop skirts which were the popular fashion in the days before the civil war. And then when his own grandmother walked abroad on a gusty windy day, no doubt she the playful zephyrs lifted the ample folds of her skirts on-lookers (if there were such as he in those days) might have beheld not only the delicate texture of stockings, but also exquisite handwork of the embroidery upon the pantalettes. His grandmother herself no doubt with her own hands beautifully worked the delicate figures of these embroidered garments and felt no suggestion of offenses to her own modesty in the thought that hahay they might have been seen, at times. The young man who enveighs against the split skirt may well remember the true modesty and womanly decorum of his own grandmother.

Costly Treatment.

"I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hine, of Whitlow, Ark. "I went to a St. Louis hospital, also to a hospital in New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now all right." Sold by all dealers. (Adv.)

PETERSBURG, VA., PITCHER ESTABLISHES NEW WORLD'S RECORD

Pitcher Hedgepeth Hurts Double Header, Allowing But One Hit and No Score in the Eighteen Innings Petersburg, Va., Aug. 13.—Pitcher Hedgepeth established a world's record today when he pitched both games of a double header against Richmond and was hit safely but once in the 18 consecutive innings. He was not scored against, gave only three bases on balls and did not hit a batsman. Hedgepeth was sold to the Washington Americans several weeks ago.

REJECT PLAYER'S APPEAL

Cincinnati, Ohio, Aug. 13.—The national baseball commission today rejected the appeal of Player B. H. Hanson of the Detroit Three Eye club, from the decision of the national board disallowing his claim for salary for the season after he had been injured in a game May 11th. The commission held that the player had reported unfit for duty and had left his team without notice.

SOME OFF-SIDE CHUTES

Johnnie Dundee, the handy little eastern scrapper, landed a haymaker on Chicago Jack White in the Vernon, Cal., arena Tuesday night. The Windy City lightweight aspirant went out for some time beyond the allotted ten seconds. Dundee, who is a featherweight, has been forced to go out of his class to get on a bout, all the boxers in his true rating dodging an issue with him. Ad Wolgast, before the contest, had issued a sweeping challenge to the winner, at the same time exposing his rabbit's roof in the hope that White would win. When the little bonnie briar copped the persimmon, the Michigan bear-cat had a change of heart and made arrangements to accompany James J. Jeffries (another used-to-be champion) up into the mountains on a hunting expedition.

Bob McAllister, the coast middle-weight amateur boxer, who recently joined the professional ranks and fought a twenty-round draw with Sailor Ed Petroskey, has announced he will retire from the ring for one year. The young insurance solicitor, who is but 20 years of age, has taken this step upon advice of an elder brother, who is his manager. The latter figures the youngster has a long lease of life ahead of him if he does not crab it before maturity, and in order to harden him will put him through a slow course of training for a year.

Mike Cantillon is kept busy denying reports that his sensational young pitcher, Ralph Comstock, has been sold to Comiskey. Notwithstanding denials from both Mike and Brother Joseph, Comiskey was in Minneapolis two weeks ago, and the Cantillon brothers chaperoned the Old Roman out to the Millers' park to watch the saliva artist perform. At that time "the grandest sport in America" expressed himself quite freely upon the prowess of Comstock and remarked there was a nice little niche for him at West Thirty-fifth street and Shields avenue. Write the opening of the 1914 season at the Chicago White Sox park.

Ban Johnson will not tolerate deadbeats to get away with the goods and at the same time remain in the line-up of any of the American league teams. One year ago when big, good natured Jim Vaughn was with the Yankees, his side partner, pitcher Ray Caldwell "counseled" him to sell. Vaughn sold himself for \$16 as a loan. Jim shortly afterwards was shipped to brushes in Kansas City and Caldwell felt himself under no obligations to reimburse him. Repeated letters from Vaughn were shuffled into garbage boxes without answer. Jim is again back in the big show, and immediately upon arrival put his case before Ban Johnson, who in turn laid it before the National Commission, which has ruled that Mr. Caldwell, until he has returned to Jim his sixteen simoleons, will not be permitted to participate in organized ball.

Keokuk, which has been under a national commission ban, has come across with \$175 due to one of its former players, R. A. Madigan, and has been restored to good standing in the national agreement.

The labor unions of Terre Haute, Ind., appealed to the chief of police to stop the proposed fight between Jack Dillon and George Brown on Labor Day and has been turned down by that official. The end is not yet. The Central Labor union heretofore has set itself against the desecration of Memorial and Labor Day both in resolutions and appeals to officers of the peace. This last turn down by the chief of police has served only to force them to a step higher, the union officials declaring the fight will not take place upon their holiday, if they can find the necessary relief from the courts.

They have revived an old come-on in a new quarter. At Michigan City, Ind., the people are being guiled with the old Greek-Roman and catch-as-catch-can gag. "Tuesday a 'terrible' Turk flopped Edwards of Salt Lake City in two 'straight' falls in 46 and 6 minutes. This match was to take the 'frost out of the sports' feet", as another contest has been arranged for Labor Day.

Robert Goelet, the New York millionaire, has fitted up his kennels at Glenview, N. Y., with a swimming bath for the use of his pet Danes, the only dog swimming bath in the world. The society leader in Gotham's 400 evidently is a stranger in the East Side tenement district where a little spilling of that Catskill aqua pura would be of far more reaching benefit to a sweltering, half-fed half a million human beings.

Jersey City and Toronto in the International league played a twenty-inning tie game on Tuesday without a run. Hearn pitched the entire twenty rounds for Toronto. Thompson hurled fifteen for Jersey City and was relieved by Brandom. There was but one error in the entire game. The Jerseyites got seven hits off Hearn and the Canucks amassed ten off Thompson and Brandom.

DUNDEE TO MEET WOLGAST.
Los Angeles, Cal., Aug. 13.—Managers for Johnny Dundee and Ad Wolgast posted today \$1,000 guaranteeing a 20-round bout here on Sept. 9th. Dundee will call off his meeting with Tommy Murphy scheduled for Labor Day at San Francisco.

I. O. O. F. OF WEST TEXAS.
Abilene, Texas, Aug. 13.—Abilene is entertaining for two days the annual meeting of the West Texas Odd Fellows' association. Ten counties are represented at the meeting by several hundred delegates. Deputy Grand Master W. R. Francis of Fort Worth was one of the speakers at the opening session this morning.

DOING

Not Much Difference What You Do

If you have your wages all spent by the time you get them—might as well be a slave and be done with it! Slaves get their board and clothes and a place to sleep—and that's about all the man has who only has his week's wages long enough to divide them between the grocer, the the butcher, the rent man and the coal man.

Quit working for the grocer and the others—save 20 per cent and have more in your pocket— You can do it by paying cash, and we will let you have all the money you need to start. You can pay it back a little each week or month.

WHAT?

Auto Burns in Road

Near Chandlerville

(From Thursday's Courier)

Chandlerville, Aug. 7.—An automobile owned by A. W. Morse of this place, was totally destroyed by fire about 8 o'clock last evening while on the road near Fairview church, Mason county, just west of Sadora. Mr. Morse with a party had been fishing on Snicarte slough and was on his way home when the accident occurred. The roads had just been strawed in the sandy parts that day and the machine ran into the strawed portion before the danger was realized. After going a short distance the straw filled up under the car and the engines were unable to make the car go forward or backward. Almost instantly the straw became ignited, supposedly from the exhaust, and the flames spread so quickly that help could not reach the scene in time.

A Babcock Fire Extinguisher carried on this car would have saved it. Do you carry one? A Babcock in your home or business might save it. The cost is less than a fire insurance policy; it lasts a life-time, and the cost of up-keep is nothing. We would be glad to talk to you about it.

KANSAS WOMAN WHO SUFFERED

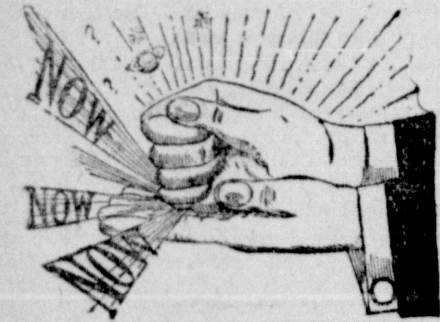

From Headache, Backache, Dizziness and Nervousness, Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lawrence, Kans.—“A year ago I was suffering from a number of ailments. I always had pain and was irregular. During the delay I suffered a great deal with headache, backache, dizziness, feverish spells, nervousness and bloating. I had been married nearly three years. I took Lydia E. Pinkham's Vegetable Compound and now I feel better than I have for years. I recommend Lydia E. Pinkham's Vegetable Compound to all who suffer as I did.”—Mrs. M. ZEUNER, 1045 New Jersey Street, Lawrence, Kansas.

Montana Woman's Case. Burns, Mont.—“Lydia E. Pinkham's Vegetable Compound cured me of awful backache which I had suffered with for months. I was so weak I could hardly do my work and my head and eyes ached all the time. Your Compound helped me in many ways and is a great strengthener. I always recommend it to my friends and tell them what a grand medicine it is for women. You may use my name for the good of others.”—Mrs. JOHN FRANCIS, Burns, Montana.

To Cure Salt Rheum and Scaly Skin

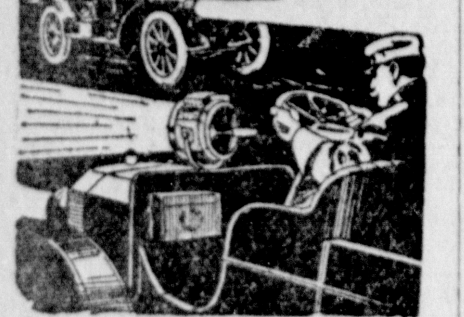

A most Effective Treatment and Quick in Results.

Salt rheum, scaly skin and other itching skin afflictions may be soothed by frequent applications of witch hazel. But the cure must come from the activity of the fine network of blood vessels that make up the skin formation. You should use S. S. S. for the blood. This splendid remedy is a marvel for salt rheum, eczema, lupus, prosoia and scrofula. Ask at any drug store for a bottle of S. S. S., and you are then on the road to health. The action of this remarkable remedy is direct, positive, certain in its influence. It is one of those rare medical forces which act in the blood with the same degree of certainty that is found in all natural tendencies.

Out through every skin pore acids, germs and other blood impurities are forced in the form of invisible vapor. There is scarcely a community anywhere but what has its living example of the wonderful curative effects of S. S. S. Get a bottle of this famous remedy to-day, and if your case is stubborn or peculiar, write to The Swift Specific Co., 188 Swift Laboratory, Atlanta, Ga.

Beware of all substitutes for S. S. S., the remedy you can depend upon for safety and effectiveness.

ONLY UNION VETERAN IN LOWER HOUSE.
Washington, Aug. 13.—As active and vigorous as men of 50, Gen. Isaac R. Sherwood, who represents the ninth Ohio district in congress, passed his 78th birthday anniversary today.

General Sherwood is a man of unique distinction, for of the 435 members of the present house of representatives he is the only union veteran of the civil war. This is a rather remarkable distinction, when it is remembered that a decade or so ago a substantial percentage of the members of congress were war veterans. The Democratic landslide of last November swept three union veterans, Dalzell of Pennsylvania, Thistlewood of Illinois, and Hill of Connecticut, out of the house and left General Sherwood the lone survivor.

In view of the present age of every soldier of the ‘60s it is reasonable to suppose that the Ohio representative will be the last of the “boys in blue” to sit in the lower house of congress.

MYSTERY SURROUNDS DEATH OF BAND LEADER.
The death of Clement E. Stefano, leader of a carnival company band, which occurred at Bath, has led to the arrest of two men on the charge of manslaughter. The body of Stefano, who was 80 years old, gave evidence of severe treatment which made the authorities think that he had either been severely beaten or injured in a fall. It is believed that he became involved in a brawl with other members of the carnival company.

TRUTH TRIUMPHS
Jacksonville Citizens Testify for the Public Benefit.

A truthful statement of a Jacksonville citizen, given in her own words, should convince the most skeptical about the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, sleeplessness, urinary disorders or any form of kidney ills, use a tested kidney medicine.

A Jacksonville citizen tells of Doan's Kidney Pills.

Could you demand more convincing proof of merit?

Mrs. J. H. Allen, 430 S. Main street, Jacksonville, Ill., says: “I can strongly recommend Doan's Kidney Pills for they did me a world of good. Often I was so dizzy that I couldn't see and I also felt nervous. My kidneys were weak and I had backache. Doan's Kidney Pills fixed me up in good shape.”

If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Allen had the remedy backed by home testimony. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

Remarkable Cure of Dysentery
“I was attacked by dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief.” writes B. W. Hill of Snow Hill, N. C. For sale by all dealers. (Adv.)

TO THE PUBLIC:

As heretofore announced, the Illinois Stock Exchange, Jacksonville's great price cutters, have incorporated and are now reorganizing. A new lease has been negotiated and our many staunch friends and patrons join with the local management in congratulations at the decision of the stockholders.

Many improvements on the inside and outside of our present location are planned, but the first orders from headquarters are, turn our present stock on hand into cash at once.

And our buyers have recently purchased for instant cash the entire bankrupt stock of R. E. WILSON, of Wyoming, Ill., which is now in transit and is already beginning to arrive. This stock was purchased at public auction at a price so that it will be combined with the stock on hand at one big reorganization sale at prices that are less than the cost of raw material.

MATERIAL ARRIVES FOR CHILD WELFARE EXHIBIT

Interesting Collection of Graphic Illustrations Received From Baltimore for the Jacksonville Chautauqua.

A committee from the Morgan County Medical society received Thursday from Baltimore, Md., the material for the child-welfare exhibit which is to be held this year at the chautauqua. The exhibit is the property of the American Association for the Study and Prevention of Infant Mortality and is the only travelling collection of its kind in the country. It consists of charts, models and graphically illustrated statistics on the best means of securing the health and safety of the child.

The national association takes this method of impressing the public with the conditions in this country which are conducive to high infant mortality and the means of preventing the wholly needless death of every seventh child who sees the light of day in America. Members of the Morgan County Medical society will give daily talks on the conditions depicted in the exhibition. A number of Jacksonville young ladies have volunteered to aid the society in the care and distribution of literature which will be provided on child welfare and a trained nurse will be on duty to explain the meaning of the exhibits to those who attend the chautauqua. The first child-welfare exhibit was held in Baltimore under the auspices of members of the faculty of Johns Hopkins university. Another was held in New York the next year and a third in Chicago in 1911. Of late years, the movement for the study and prevention of infant mortality has grown and since the recent establishment of the child-welfare bureau at Washington the researches along the line of conserving the nation's greatest resource have become more scientific and much more effective.

A Good Place to Trade

Some months ago on moving into our remodeled quarters we took "A Good Place to Trade" as our slogan. We have sought to live up to this phrase, and we have convinced an increasing number of people of the sincerity of our purpose. In consequence our list of customers has grown steadily. We constantly strive to keep this store stocked with the best goods that any market can supply, and we believe we succeed in a way to merit the approval of patrons.

If you have never tried the TAYLOR SERVICE and do not know whether or not this really is "a good place to trade," why not try this store this week?

HUNDREDS ATTEND ANNUAL CHICKEN FRY

Members of Baptist Church of Liberty Provide Fine Meal For Big Crowd.

Hundreds of people from Liberty, Jacksonville and a number of surrounding towns attended the annual chicken fry given by the ladies of the Liberty Baptist church in the basement of the church Wednesday evening. One hundred and forty-five chickens had been prepared and fried by Spencer Carpenter and the ladies had an abundance of other good things to eat which go to make up an excellent chicken supper.

In order to avoid delays and inconvenience in serving the large crowds, numbered tickets were sold and five large tables were arranged so that one hundred could be served at a time. In this manner there was no crowding and the large numbers were served in a very efficient manner. The ladies realized quite a neat sum from the supper which will be used toward defraying the expenses of the church. Those in charge of the tables were Mrs. O. M. Petefish, Mrs. J. M. NOTE FOUND IN RIVER IN BOTTLE MAY CLEAR UP MYSTERY

Tells of Murder of Man in St. Louis Eight Years Ago and is Signed "Jack White."

St. Louis, Aug. 13.—A note found in a bottle found floating in the Mississippi river at Burlington, Ia., today, is expected to clear up a murder mystery which has puzzled the St. Louis police for eight years. The note read:

"I murdered a man in St. Louis but I don't want to go to jail for it. I intend to jump into the river at Davenport, Ia. The deed was committed September 11th, 1905." It was signed "Jack White." On that date Emil Kronsmueller was found unconscious in a wagon here and died a few minutes later. Beside him was a bottle of poison. The inquest failed to reveal any poison in his system but indicated that death had been brought by a blow to the head. No clue of his murder ever was obtained.

BAND OF INDIANS CAMPED AT RIGGSTON

Travelers Are on Their Way From North Dakota to Georgia—Journey Halted Because Valued Horse Is Killed on Burlington Tracks.

For the past two weeks a band of Indians have been camping at Riggsston, twelve miles west of the city. The first day the travelers arrived in the burg one of their valued horses strayed on the Burlington railroad track and was killed by a passing freight train. The parties have asked the price of the horse from the company and they are waiting there to know what disposition the company will make about the matter.

There are three families in the campers, Mr. and Mrs. Waso Mitchell and family, Mr. Mitchell's son and his wife and Mr. and Mrs. Tannis Yoan. Mrs. Yoan is a sister of Mrs. Waso Mitchell. They are going from North Dakota to Georgia, where they intended to pick cotton. The men claim they are South American Indians and that the women are from the Cherokee tribe of Indians. Judging from the manner in which the men let the women do a major portion of the work, they have the stamp of real Indians, although some are inclined to think they are half-breeds. They appear to have plenty of money and while they beg some they are always willing to pay. They bought a hog Monday and killed and salted the porker.

The horse killed by the railroad was one of a grey team, which they valued at \$600. The horse was killed beyond the cattle guards, of the railroad, hence the Indians believe they have a right to the price of the horse.

Two of the men claim to belong to the Masonic lodge, being members of the order at Nashville, Tenn. A well known Mason of the Riggsston vicinity went to their camp and testified that they were versed in Masonry.
